### To whom it may concern

It is statement that **NAVINORD** has supported Choren Design and Consulting with extensive professional services on the fields of:

- **navigation and communication systems selection with respect to IMO/SOLAS and ship-owner's national marine administration regulations;**
- **complex marine electronics schematics designing for classification society (CAD);**
- **designing of wheelhouse equipment arrangement (CAD);**
- **designing of navigational consoles arrangement (CAD);**
- **study and design of Marine Practice Training Network;**
- **designing of unique marine devices modifications;**
- wide-scope marine electronics consultancy.

NAVINORD was involved in designing process of the Special Purpose Training Vessel LOA 63m which is being built for ship-owner in Asia.

All jobs commissioned to NAVINORD are always done in time and with great accuracy.
